

Designed and Engineered  
**IN THE USA**

Rover Lifts Scissors lifts, the same as Rover Lifts' other lifts, adhere to the principle of safety, durability, convenience and best performance. By the strict control of design, material-selection, manufacturing and examination, assure Rover Lifts Scissors lifts offer you the best quality.

## FEATURES

- Dual synchronous cylinders are applied to assure the lifting level on both platforms
- Electro-air control system, mechanical safety locks
- Sand resistance platform to avoid skidding
- Heavy duty design, the X serial scissors lifts use 150\*75mm tube to make it strong and assure runways remain level during working
